Valve Flow And Control

加能阀门流程及控制

加能阀门追求生产的标准化、精细化，不断完善自己的生产 工艺流程，包括每一个零部件，都严格按标准精心打造，确保产品的高品质。

为了提供高品质产品，公司配置了先进的检测设备以及完善的检测手段，建立了一支严格要求的品质管理队伍，实现了从原材料检测，生产过程检测，产品及应用全过程的质量控制。

Jianeng valve, the pursuit of production accuracy, refinement, and constantly improve themselvesLean manufacturing methods, including each component, are strictly standardCarefully built to ensure high quality products.

In order to provide high quality products, the company is equipped with advanced testing equipment to And improve the detection means, the establishment of a strict quality management requirements Team, from the realization of raw materials testing, production process testing, products andApply the whole process of quality control.

General Manager

总经理致词

我谨代表加能阀门全体同仁，向多年来关心和支持我们事业发展的社会各界的朋友们，致以衷心的感谢和诚挚的问候！

百舸争流千帆竞，商海沉浮浪淘沙。加能人以激情与梦想，迎着中国企业在入世后所面临的新一轮机遇和挑战；努力优化组合各要素，建立健全现代企业制度，打造企业核心竞争力。发扬振兴民族工业之风帆，领导全行业健康蓬勃发展。

科技是第一生产力！加能人一直重视科技的革新与投入，重视人才的引进，建立优质宽松的环境，以人为本，使各种人才都有施展才华的舞台。欢迎各界有识之士加盟我们共同的事业。

创新乃企业生命之源泉！加能人将不断吸收先进的观念、方法和思想，引进新设备、新工艺，不断向广大用户提供优质的新产品，打造高科技民营企业，以赶超世界先进水平为己任。

员工是企业最具活力的生产要素！以人为本关爱、团结互信、尊重、卓越、团队精神、人人都是人才、欲制造优质的产品先造就优秀的员工等理念打造先进的企业文化，增强企业的凝聚力。

质量是企业生存之根本！加能人以精雕细刻，精益求精的工作作风，孜孜不倦、力求完美的精神，向广大用户提供优质的产品，周到的服务。

企业是舟，客户是帆！加能阀门的发展与壮大，离不开社会各界的关爱和支持，更离不开广大用户的信赖和惠顾。回报社会，做个负责任的企业是我们一贯的准则。让光荣与梦想，灿烂与辉煌，一直追随着你和我；让时代的光华，照耀着巨龙腾飞的东方！

同时我们愿与各界精英接受合作，不断吸收先进的阀门制造技术和企业管理经验，为推进阀门行业的前进，打造民族工业品牌做出更大的贡献。

最后，祝朋友们事业腾飞，万事如意！

总经理: 王良明

On behalf of all my colleagues, I wish to extend my heartfelt thanks and sincere greetings to the friends of all circles who have been concerned and supported the cause of our development for many years!

Fierce sails, the ups and downs langtaosha. With the passion and dream, the company will meet the new opportunities and challenges that Chinese enterprises are facing after joining the WTO. They will strive to optimize the combination of various elements, establish and perfect the modern enterprise system, and create the core competitiveness of enterprises. Carry forward the national industry sails, leading the whole industry healthy and vigorous development.

Science and technology is the primary productive force! Plus talent has always attached importance to scientific and technological innovation and investment, attention to the introduction of talent, the establishment of high-quality and relaxed environment, people-oriented, so that all kinds of talent has a stage to display their talents. Welcome people of all walks of life to join our common cause.

Innovation is the source of enterprise life! And people will continue to absorb advanced concepts, methods and ideas, the introduction of new equipment and new process, continue to provide high-quality new products to customers, build high-tech private enterprises, in order to catch up with the world advanced level.

Employees are the most dynamic factors of production in an enterprise! In the love, unity and mutual trust, respect, excellence, team spirit, everyone is a talent, to create high-quality products to have excellent staff such as the idea of creating the advanced enterprise culture, enhance the cohesion of the enterprise.

Quality is the foundation of enterprise survival! In order to strengthen work, improving work style, diligently, strive for perfection of the spirit, to provide quality products to customers, and thoughtful service.

A business is a boat, a customer is a sail! The development and expansion of energy plus valve can not be separated from the care and support from all sectors of society, and can not be separated from the trust and patronage of the vast numbers of users. Return to society, to be a responsible enterprise, is our consistent requirements.

Let glory and dream, brilliant and brilliant, always follow you and me; let the brilliance of the times shine on the dragon's soaring east!

At the same time, we are willing to cooperate with the elite from all walks of life, continue to absorb advanced manufacturing technology and enterprise management experience, to promote the progress of the valve industry, to create a national industrial brand to make greater contributions.

Finally, I wish you all the best in your career and success in everything!
